General Information

My principle area of practice is the regulation of professional persons. I act as an Independent Legal assessor for the NMC and the Church of Scotland. I act for individuals facing complaints by other regulators.

I maintain a practice in delict, and consider myself skilled in high-value, complex claims and quantifications. I also have a practice in FAIs and have appeared in high profile cases for the NHS and local authorities. I accept instructions in employment matters, with an emphasis on discrimination and whistleblowing cases.
